

Today is

For over 50 years, KICY has served more than 40 villages in Western Bush Alaska and many more in The Russian Far East. That includes Chukotka, Kamchatka and Siberia.

Our volunteer staff lives and works over 500 miles from the nearest road.

The cost to operate a 50,000 watt radio station in Bush Alaska is constantly increasing. Our electricity is created by diesel generators and the fuel is barged in from the Lower 48. Our local utility does the best it can to keep costs down, but that is largely out of their hands. Now, we're asking for your help, as we do once each year at this time.

Our request is simple. We are asking for only

\$1.00

from each of you in attendance today. If 100% of our Covenant Churches would prayerfully participate in 100% Sunday, we could assure the continued financial success of KICY AM & FM.

Thanks for your help!

KICY

*Spreading the Gospel to Western Alaska
& The Russian Far East.*
